

STUDENT EQUITY RESOURCES

Recommendations

Student Success (re)Defined

The RP Group

Counseling/Advising/Support Services

- Provide career exploration and discipline-specific advising
- Provide additional resources and tools for goal selection and monitoring of progress
- Provide regular feedback on students' performance and progress
- Connect students with special programs (e.g., DSPS, EOPS, Puente, Umoja, etc.) that provide intensive support
- Develop resources that enable students to track their own progress towards meeting their educational goals
- Direct more intrusive outreach to first-generation and undecided students
- Promote your community college as a place of pride and worth in students' postsecondary experience

Instructional Strategies

- Have high expectations for students
- Provide community service and leadership opportunities
- Create opportunities for and encourage students to provide feedback
- Offer venues where students can share their family history, culture and traditions
- Recognize students' potential and encourage them to use their skills, abilities and experience to help others
- Ensure students understand course material
- Know students' names
- Communicate and demonstrate to students that you care about their success
- Offer challenging classes with hands-on, real world applications
- Allow students to provide feedback in both formal and informal ways
- Highlight the advantages of and encourage participation in extracurricular activities
- Provide both formal and informal opportunities for peer-to-peer connections both inside and outside of class

Academic Support

- Offer direct and tangible academic support
- Connect students to existing academic support programs and services
- Encourage students to utilize academic supports and ensure adequate access to these resources
- Find ways to link students to available support resources and programs
