 - Summer FTES are low when compared to the same time last Summer; however, we are registering earlier for Summer this year.
 - The short-term, late start classes list for Spring 2023 was provided. It represents a cross-functional list of classes, predominantly general education classes. This list will be shared with Student Services staff to assist students who are seeking to enroll in late start classes, including promoting them through an EAB campaign.
 - SCE noncredit Spring enrollment is strong, reflecting an increased headcount of about 500 at week five, when compared to last year. Projected annual enrollment is expected to be approximately 100-180 FTES above P1 projection for noncredit FTES.

2. The April 10, 2024, Board Meeting draft agenda was reviewed.
3. The K-12 adult education state leadership shared with statewide consortia a proposed new funding formula for California Adult Education Program (CAEP) allocations. This existing formula is 10 years-old and the Legislative Analyst's Office recently published a [document](#) reflecting recommendations to redesign adult education funding. The recommendations include phasing out community college CAEP funding. Mt. SAC's regional consortium composed of seven K-12 members are strongly opposed to the new formula which as published would significantly reduce funding to our consortium. Our consortium plans to send a letter to the K-12 state leadership opposing any changes to the current funding formula.
